## PROFESSIONAL SUMMARY

Data Analyst and BI Specialist with 1+ years of experience in driving operational efficiency through data analysis, visualization, and reporting. Currently enhancing network performance at Orange Egypt (NUR team) by developing automated dashboards and performing rigorous KPI analysis. Proven ability to translate complex data into actionable insights for senior stakeholders using SQL, Power BI, and Python. Adept at building scalable data models and automating workflows to reduce manual effort and improve decision-making speed. Eager to apply analytical expertise to solve business challenges.

## WORK EXPERIENCE

**Performance Analyst | Orange Egypt**

**January 2025– Present**

- Developed automated reporting solutions for telecom network performance, monitoring 20+ critical KPIs and reducing manual reporting time by over 90% (from days to minutes).
- Engineered complex SQL queries (CTEs, Window Functions, Stored Procedures) to clean and validate datasets with over 1 million records, ensuring 99% data accuracy for executive reporting.
- Designed and optimized executive-level Power BI dashboards using Star Schema data models and advanced DAX (Time Intelligence, measures), replacing static Excel reports and enabling real-time performance tracking.
- Collaborated with senior management to identify key performance bottlenecks, delivering actionable insights that supported data-driven decisions for network optimization.
- Standardized weekly and monthly reporting workflows, improving consistency and accessibility of performance data for the entire NUR team.

**Freelance Data Analyst | Future Clinics**

**November 2025– Feb 2026**

- Designed and implemented an Excel-based data collection system, standardizing operational data entry across 5+ clinics and eliminating inconsistent reporting.
- Performed end-to-end data cleaning and preparation, ensuring high data integrity for analysis.
- Built a structured data model and developed interactive Power BI dashboards to provide clinic management with real-time visibility into operational performance (e.g., patient flow, resource utilization).
- Automated weekly and monthly reporting processes, reducing manual data handling effort by 70% and enabling management to track operational trends accurately.

# EDUCATION

## Bachelor of Computer Science

Al-Obour Institute | Graduated: 2024

# TECHNICAL SKILLS

- **Databases & SQL:** SQL Server, T-SQL (Joins, CTEs, Window Functions, Stored Procedures, Indexing, Data Validation, Query Tuning).
- **Data Visualization & BI:** Power BI (Star Schema Modeling, DAX, Power Query, M, Drill-through, Bookmarks, Row-Level Security), Tableau (Basic).
- **Programming & Analysis:** Python (Pandas, NumPy for Data Cleaning & Analysis), Jupyter Notebooks, Google Colab. Statistical Analysis, Trend Analysis, KPI Design.
- **Tools & Other:** Microsoft Excel (Advanced: Power Query, Pivot Tables, VLOOKUP/XLOOKUP), Git (Version Control), ETL Processes, Data Storytelling, Stakeholder Communication.

# PROJECTS

## Adventure Works Sales Dashboard – Power BI

- Developed a classic sales dashboard using the Adventure Works dataset, showcasing expertise in data modeling, DAX calculations, and visual storytelling. Demonstrated ability to transform raw data into actionable business intelligence.

## Call Center Performance Dashboard (Sallah Company) – Power BI

- Designed an interactive dashboard to track call volumes, agent productivity, and customer satisfaction metrics. Enabled management to identify bottlenecks and improve service levels by 15%.

## Sales Dashboard (Misuo) – Power BI

- Built a comprehensive sales analytics dashboard analyzing revenue trends, product performance, and regional sales distribution. Delivered insights that helped pinpoint underperforming regions and optimize inventory.

## Real Estate Analytics Dashboard (Aqqar Map) – Power BI

- Created a geospatial dashboard for real estate data, visualizing property prices, location trends, and market dynamics. Provided investors with an intuitive tool to identify promising opportunities.
